# Pillow Menu

*A restful sleep begins with the right pillow.*

## *Why the right pillow matters*

Quality sleep helps the body recover, supports concentration, balances mood, and improves overall wellbeing. The right pillow helps keep the head, neck, and spine comfortably aligned, so you can relax more deeply and wake up refreshed.

## *How to choose your pillow*

- Back sleepers usually prefer medium support.
- Side sleepers often need more height and firmer support.
- If you change position during the night, choose balanced support.
- Personal comfort, shoulder width, and body build also matter.

## *Already in your bed*

### *Morfeas*

Duck down & feathers.  
Feather-light smoothness. Suitable for medium weights.

### *Narkissos I*

Natural rubber flakes.  
Ideal for side sleepers. Optimal head and neck support.  
Suitable for all body builds.

## *Available upon request*

### *Sithon I*

Natural rubber flakes.  
Optimal head and neck support. Suitable for all body builds.

### *Narkissos II*

Natural rubber flakes, duck feathers & down.  
Perfect for any sleeping position. Optimal head and neck support.  
Suitable for all body builds.

*Morfeas and Narkissos I are already prepared on your bed.  
If you wish, we will be happy to provide Sithon I or Narkissos II upon request.*
